## PROFESSIONAL SUMMARY

---

Full-Stack Web Developer with hands-on experience building responsive web applications using React.js, Tailwind CSS, Node.js, Express.js, MongoDB, and REST APIs. Skilled in JWT authentication, CRUD operations, database integration, debugging, API testing, Git/GitHub, and reusable component-based development. Background in accounting, sales, recruitment, and volunteer organization, combining technical skills with strong communication, problem-solving, teamwork, and business understanding.

## TECHNICAL SKILLS

---

**Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS, Vite, Responsive Design

**Backend:** Node.js, Express.js, REST APIs, JWT Authentication, Authorization, CRUD Operations

**Database:** MongoDB, MongoDB Atlas, Mongoose

**Tools:** Git, GitHub, VS Code, Postman, Figma

**Professional:** Problem Solving, Debugging, Teamwork, Communication, Time Management, Adaptability, Continuous Learning

## PROJECTS

---

### UNION – SaaS Business Management Platform

React.js, Vite, Tailwind CSS, i18next, Node.js, Express.js, MongoDB, JWT

- Designed and developed a bilingual SaaS platform concept for managing different business types, including restaurants, pharmacies, clothing stores, service businesses, real estate, and beauty businesses.
- Built an Arabic/English interface with RTL support and a scalable structure for business management and dashboard functionality.
- Designed full-stack architecture covering authentication, business data management, REST APIs, database integration, and subscription-ready functionality.
- Structured the platform around multiple subscription plans and scalable business features.

### ALEX.STORE – Full-Stack E-Commerce Platform

React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Mongoose, JWT, Git/GitHub

- Developed a full-stack e-commerce platform for a custom clothing store using React.js, Node.js, Express.js, and MongoDB.
- Implemented product management, authentication, protected functionality, shopping cart features, and responsive user interfaces.
- Built reusable frontend components and connected the application with backend APIs and MongoDB.
- Tested and debugged backend functionality and API endpoints during development.

### SkillUp – E-Learning Platform

React.js, Vite, Tailwind CSS, Framer Motion

- Designed and developed a responsive e-learning platform for browsing courses, instructors, and categories.
- Built reusable React components, responsive layouts, and interactive UI sections with smooth visual interactions.
- Implemented structured course data, local data management, and a scalable interface for an educational platform.
- Included 20 courses, 10 instructors, and 8 categories.

### ALPHA – Real Estate Landing Page

React.js, Vite, Tailwind CSS, Framer Motion

- Designed and developed a premium real estate website focused on showcasing properties and locations.
- Created a custom luxury visual identity with strong typography, visual hierarchy, and responsive layouts.
- Built responsive sections optimized for desktop and mobile user experiences.

## Doctor Landing Page – Medical Website

### React.js, Vite, Tailwind CSS, Framer Motion

- Designed and developed a responsive medical website for a doctor specializing in internal medicine and gastroenterology.
- Built sections for medical services, appointment booking, contact actions, and WhatsApp communication.
- Created a professional medical visual identity with responsive layouts and clear content structure.

## PROFESSIONAL EXPERIENCE

---

### HR Recruiter / Talent Acquisition Specialist

Freelance | 1 Year

- Handled recruitment activities including candidate communication, screening, coordination, and follow-up.
