PROJECTS

Full-Stack E-Commerce Web Application

React.js | Tailwind CSS | Node.js | Express.js | MongoDB

- Developed a full-stack e-commerce application with separate frontend and backend architecture.
- Built product CRUD operations using Node.js, Express.js, and MongoDB.
- Implemented user authentication and authorization using JWT.
- Designed responsive and modern user interfaces using React.js and Tailwind CSS.
- Worked with MongoDB Atlas and tested backend APIs using Postman.
- Structured the project using reusable frontend components and organized backend routes.

Alex.Store – Clothing E-Commerce Website

React.js | Tailwind CSS | UI/UX

- Designed and developed a modern e-commerce website for a clothing store.
- Built responsive and user-friendly interfaces using React.js and Tailwind CSS.
- Created reusable UI components for different sections of the website.
- Focused on modern UI/UX, responsive design, and smooth user experience.

Personal Portfolio Website

React.js | Tailwind CSS | Vite

- Building a modern portfolio website to showcase technical skills, projects, education, and experience.
- Developed reusable React components and responsive layouts.
- Implemented smooth navigation and interactive UI elements.
- Focused on modern UI/UX, responsive design, animations, and professional presentation.
